Mixed Billing – Scale of Fees

IWC has a mixed billing model for non-Indigenous / private patients. This means that you will be charged a fee when you attend an appointment at IWC Medical Centre unless you are eligible for bulk-billing by meeting one of these categories:

- Aboriginal and Torres Strait Islander; or
- Holder of a pension card; or
- Holder of a concession card; or
- Children under 16 years of age.

Scale of fees:

- Standard consultation - $68
- Long consultation - $114
- Extra-long consultation - $162

Are your Medicare details, including registration of your bank account details, up to date? Please ask our staff for one of the Medicare forms, or call Medicare on 132 011.

IWC is non-government, community-run and charitable, with more than 12,000 clients for our holistic model of care. Our services include GPs, Indigenous Health Practitioners, Specialists, Allied Health Professionals, Dental, and Family & Community programs. Many of IWC's services and initiatives, including those delivered through our Medical Centre, are only partially supported by funding from government. IWC therefore co-funds many services, and we appreciate the support of our community in helping us to help those in need in our community.
